

# COG

## Token launch

After months of development and community building, COG is launched on Polygon as a store of value token. Liquidity is provided using allocated funds from pre-launch investment.

## Pre-launch

COG team is focused on building the technology and COG token. Early stage / seed investors are approached to invest in the upcoming private ICO. Investment is set aside for development costs and launch liquidity.

## COG dApps

The first COG dApps will be launched, including private sending and receiving of COG via COGsend, and previews of the COG Gaming and COGsino platforms will be available to loyal COG HODLers.

## COGchain / dApps

The COG team will launch their own private blockchain, COGchain, as well as launching more of the dApps promised in their whitepaper. dApps will include COG Gaming, COGsino, COGmail and more.

July 2023

## Staking for HODLers

Staking will be launched on COG, rewarding loyal HODLers who provide liquidity with token rewards and early access to upcoming COG dApps.

APR will be carefully managed to preserve the balance of the COG ecosystem.
